

The Vention Difference

# AI-Powered Full-Stack Automation Platform

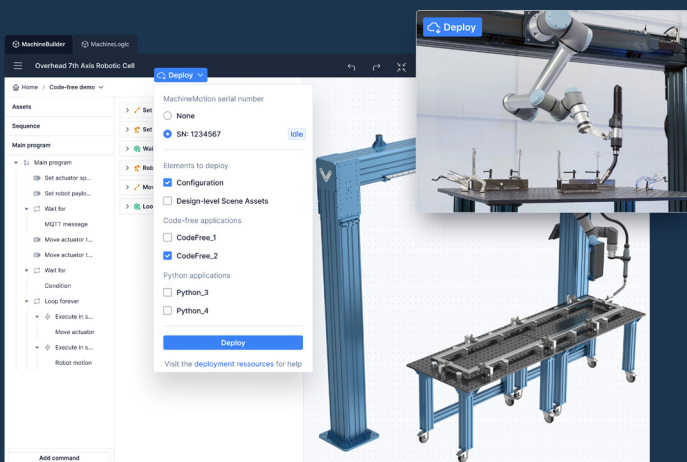

## Design

Design equipment in minutes with the only AI-powered CAD platform built exclusively for the manufacturing floor.

- ✓ AI-assisted design with modular parts
- ✓ Auto-generated bill of materials and online ordering
- ✓ Cloud-native collaboration

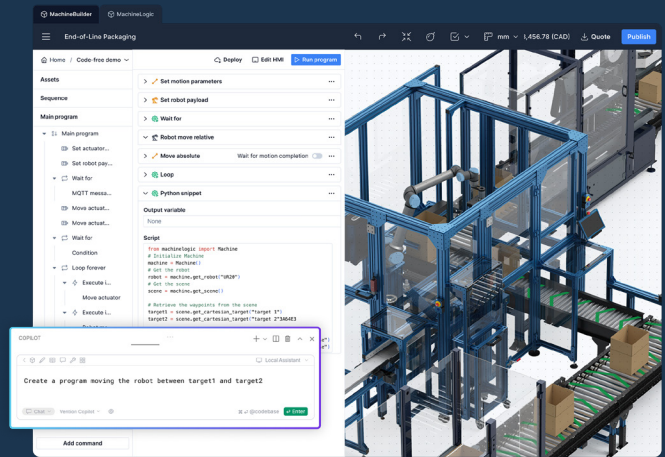

## Deploy

Go from digital twin to physical twin in minutes with cloud-to-factory floor deployment and over-the-air updates.

- ✓ Order your machine online in a few clicks
- ✓ Ships pre-assembled or with assembly instructions
- ✓ Deploy programs to your machine in one click

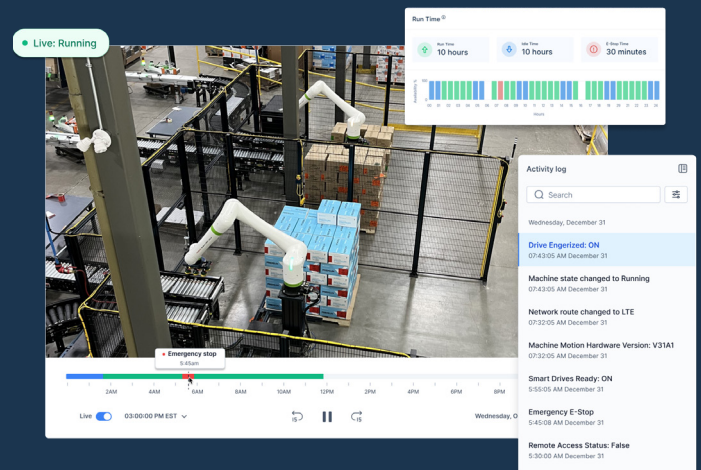

## Program

Discover the most intuitive programming, and simulation environment, for everything from robot arms to conveyors.

- ✓ No-code, AI Copilot, and Python programming options
- ✓ Accurate digital twin with physics engine
- ✓ Software-defined machine configuration

## Operate

Real-time machine insights and video streaming in one dashboard for smarter, faster decisions.

- ✓ Monitor your equipment remotely with live camera feed
- ✓ Optimize your operations with performance analytics
- ✓ Get notified with configurable alerts and events

# Ready-to-Deploy Solutions, One Connected Workflow

AI Operator

Cobot Palletizer

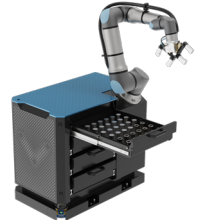

Robotic Sanding

Robotic Welding

Machine Tending

Pick & Place

Robot Pedestal  
& Bases

Industrial  
Robot Palletizer

Case Packer

Bin Picking

Robot 7th Axis

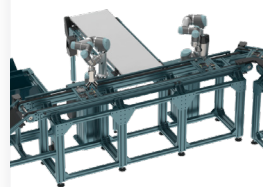

Gantry Systems  
& Path Following

Conveyors

Timing Belt  
Conveyors

AGV Top Modules

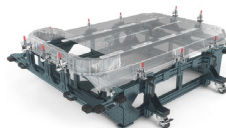

Workstations

Industrial Carts

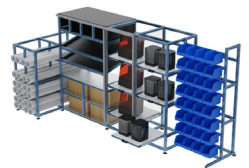

Jigs & Fixtures

Safety Enclosures

Shelves & Racks

Zero to automated  
in a few clicks.
